

## NCSG Board of Directors

The NCSG Board of Directors is composed of participants, Local Games Coordinators and professionals in the areas of health, aging, and recreation. They generously give their time to guide and develop our statewide program. Meeting four times a year, this policy-making group, with statewide representation, assures that decisions are always made with input from participants and Local Games. The members serve three-year terms and we thank them for their devotion to our mission of health promotion.
